Ladies and Gentlemen,

JEANNE HENDON, Clerk  
BY RHONDI HAGEN  
Deputy

As I have mentioned, some evidence is relevant only for limited purposes. In the past three days, you have heard evidence of circumstances at sweat lodge ceremonies that took place prior to the 2009 sweat lodge ceremony, which is the only sweat lodge ceremony that is at issue in this case.

You must not consider any of that evidence regarding prior sweat lodge ceremonies, if believed, to draw any inference regarding Mr. Ray's knowledge of any risk of death in 2009. You also must not consider that evidence regarding prior sweat lodge ceremonies, if believed, to draw any inference regarding Mr. Ray's intent, character, or conduct in 2009.

You may only consider that evidence from those prior sweat lodge ceremonies, if believed, as it may relate to whether the physical cause of death of the decedents was heat stroke or some other physical cause.
